EDUCATION

Jaypee Institute of Information Technology, Noida

Bachelor of Technology in Computer Science and Engineering

GPA: 7.6/10

Expected: May 2026

St. Peter's College, Agra — Senior Secondary Education (Science Stream, ISC Board)

Percentage: 97.5%

Graduated: 2022

EXPERIENCE

Backend Development Intern — Sopra Steria India Limited

June 2025 - Aug 2025

Spring Boot, JWT, MySQL, REST APIs, Inheritance, Abstraction, Encapsulation, Polymorphism

- Engineered **16 REST endpoints** in **Spring Boot**; implemented JWT auth and role-based access.
- Built backend for users, jobs, and applications with MySQL (**3 core tables**) and input validation/DTOs.
- Structured controller-service-repository layers across **5+ modules** for maintainability and clean architecture.

Senior Mentor — SaarthiPath

May 2025 – Present

- Mentored **50+** students in foundational programming and DSA through structured sessions.
- Designed tailored DSA roadmaps for **beginner to intermediate** learners.
- Provided **1-on-1** doubt-solving sessions over video calls for DSA queries.

PROJECTS

jiitNutrition

Mar 2025 – Jun 2025

Technologies: React.js, Node.js, Express.js, MongoDB Atlas, Pinecone, @xenova/transformers, Gemini API, Vercel, Railway

- Integrated **Nutritionix API** for accurate food nutrient data with a fallback mechanism using **Gemini API** for low-confidence items to ensure over **95%** tracking accuracy.
- Utilized **Pinecone vector search** and **@xenova/transformers** embeddings to map **50+ local food names** (e.g., "Achar" → "Pickle").
- Engineered an OCR pipeline to extract meal data from **90+ IIIT mess timetables**, deployed via **Vercel** (frontend) and **Railway** (backend) using **MongoDB Atlas** for scalable, real-time storage.

jiitSimplified

Jan 2025 – Mar 2025

Technologies: Next.js, Node.js, Express.js, MySQL, TypeScript, AWS S3, OAuth 2.0

- Built the backend for a IIIT PYQ portal using **Node.js**, **Express**, and **TypeScript** with **MySQL (Sequelize)**.
- Designed **REST APIs** to manage **500+ exam papers** by course and semester.
- Integrated **AWS S3 + Multer** for secure upload and serving of **100+ files**.
- Implemented **role-based authorization** and **Google OAuth 2.0 (Passport)** with session and audit logging.

EduChat

Dec 2024 – Jan 2025

Technologies: Node.js, Express.js, Socket.IO, Firebase (Firestore & Auth), Render

- Implemented a real-time chat app using **Express.js** and **Socket.IO**, supporting **10+ active chat rooms**.
- Used **Firebase Firestore** to persist **1,000+ messages** with user-specific access via **Firebase Auth**.
- Deployed both frontend and backend on **Render** for seamless real-time communication across test users.

ACHIEVEMENTS

- LeetCode Weekly Contest ranks: **807th/28,660** (434), **529th/29,275** (456), **889th/30,574** (457)
- Knight at **LeetCode** with max rating **1906**
- Solved **1400+** DSA problems across LeetCode, Codeforces, CodeChef, GFG

TECHNICAL SKILLS

Languages: C/C++, JavaScript, Python (Basic), Java (Basic)

Web Development: React.js, Node.js, Express.js, MySQL, PostgreSQL, MongoDB, Spring Boot

Interests: Competitive Programming, Data Structures & Algorithms

Fundamentals: OOPS, DBMS, Operating Systems, Computer Networks
